

Docstrings and Code Documentation

Documentation coverage, public symbols, conventions, and gaps.

Eurskem AI · Agentic Workflow Platform

Generated 2026-08-24

Code revision 8bd16ca4a2a3

Derived from the live repository

Source of truth. Inventories and symbol tables are generated from the current checkout. Narrative explains observed structures and does not replace executable contracts.

Documentation coverage

2844/3052

Python documented

377/4335

Frontend documented

Conventions

Public Python modules/classes/functions should explain purpose, boundaries, invariants, and non-obvious failures. TypeScript components/hooks should document state ownership and unusual effects. Comments should explain why constraints exist rather than restating syntax.

Symbol	Kind	Location	Signature / summary
<code>_scope</code>	function	<code>app/api/chat_conversations.py:23</code>	<code>user: CurrentUser</code> No summary declared.
